中国环博会

Global Environmental Solutions

3rd International Trade Fair for Water, Sewage,
Refuse, Recycling and Natural Energy Sources

23-25 September 2008

Shanghai New International Expo Centre

Accompanying Program

Technical-Scientific Conference

Environmental experts focus in their lectures on the central topics of water supply, waste water, solid waste, renewable energy and air. Organized by the German Association for Water, Wastewater and Waste (DWA) and the China Association of Resources Comprehensive Utilization (CARCU).

Environment Special

Experts and government agencies highlight the environmental protection programs of the Bavarian government and its partners. Held under the patronage of the Bavarian State Ministry of the Environment, Public Health and Consumer Protection, Germany

Asia Special

Promotes the exchange of information on the current status of environmental technology and highlights prospects for the exchange of know-how between China, Japan, South Korea and Vietnam.

Exhibitor Presentations

Companies present their solutions, products and services. These concise presentations are attended by a large, interested trade audience – the perfect meeting place to establish new contacts and convince potential business partners.

B2B Matchmaking on Innovation and Environment

Registered exhibitors can meet potential business partners and customers in a targeted manner.
